Pinnacle Edition 5.0

Course Summary

Different By Design Better By Far - Pinnacle Edition 5 is the most powerful and feature rich video editing and DVD authoring solution available. Pinnacle Edition 5 is also the first professional non-linear video editing application to utilize both the CPU and GPU to provide more than 1000 real-time 2D/3D effects, advanced color correction, chroma/luma key and more. The course covers the basic techniques you need to become proficient in combining video, animation, still images, and graphics into digital movies for videotape, CD-ROM, and interactive multimedia applications.
