

an introduction to ANARK STUDIO 2.0

an introduction to

This 1 Day Course is only \$295

For More Information call 713-988-2818

Today's media consumers demand next-generation visual experiences from interactive media applications. With Anark Studio you can finally create and deliver truly revolutionary and stunning interactive content. Anark Studio was designed with a flexible workspace, drag and drop behaviors and industry standard timeline, allowing real-time compositing and seamless integration of 3D, video, images, audio and interactivity.

With one single powerful tool, artists and developers can now reach a wider audience through Anark Studio's wide array of delivery options including players for Macintosh OSX and Microsoft Windows for CD-ROM and DVD-ROM, self-contained screensavers, video and Web with the cross-platform Anark Client™. Create mind-blowing corporate presentations, learning applications, visualizations, product demonstrations and entertainment and never again sacrifice visual quality because of bandwidth and authoring tool limitations.

You Will Learn:

Video mapping on 3D objects

Animated materials and textures

Full animation and object control

Hardware-assisted compositing

Blending of 2D and 3D elements and layers

Multiple 3d layering

Drag and drop authoring

Flexible workspace

Industry standard timeline
Timeline filters and scalability

and much, much more
