

## Adobe Audition 2.0 – One Day Class - \$295

Introduction to Adobe Audition 2.0 is the all-in-one toolset for professional audio production that allows users to record, mix, edit and master digital audio. Audition delivers the flexibility you need to produce professional results for all your audio and video projects and give you pinpoint control in an intuitive, easy-to-use environment. Whether you are composing music, recording and mixing a project, producing a radio spot, cleaning up production audio for a movie or designing sound for video games, Adobe Audition provides the flexible powerful tools you need to get the job done.

HDMTC shows how to get professional results in real time with Adobe Audition. This one day class will touch base on the versatility of the tools needed for producing exceptionally high-quality audio content. HDMTC has trained and will train many professionals and hobbyists with the digital quality sound put out by Audition and it's powerful tools. Because it is easy to use Audition is also used to edit audio for business presentations, instructional audiotapes, podcasts, and many other types of audio applications.

If you are interested in Adobe Audition or any other class that HDMTC offers please do not hesitate to call us at 713-988-2818.
